MOST OF US ARE AWARE THAT DRINKING A CUP OF COFFEE OR TEA CAN INCREASE OUR HEART RATE AND BLOOD PRESSURE. BUT SCIENTISTS NOW REPORT THAT CAFFEINE MAY NOT HAVE DAMAGING LONG TERM EFFECTS AFTER ALL. DOCTORS AT THE BRIGHAM AND WOMEN'S HOSPITAL IN BOSTON FOLLOWED MORE THAN ONE HUNDRED AND FIFTY THOUSAND NURSES FOR OVER 12 YEARS-- ASKING THEM EVERY TWO YEARS ABOUT WHAT BEVERAGES THEY DRANK AND HOW OFTEN.

THE RESULTS MAY SURPRISE YOU. CONTRARY TO POPULAR BELIEF, THE RESEARCHERS FOUND NO CORRELATION BETWEEN DRINKING COFFEE OR TEA AND HIGH BLOOD PRESSURE-- ALSO KNOWN AS HYPERTENSION. IF ANYTHING, IT WAS ACTUALLY ASSOCIATED WITH A SLIGHTLY LOWER RISK FOR HIGH BLOOD PRESSURE. THE RESEARCHERS DID HOWEVER NOTE A SMALL LINK BETWEEN HIGH BLOOD PRESSURE AND OTHER CAFFEINATED BEVERAGES SUCH AS COLA AND DIET COLA, BUT THE SCIENTISTS SAY THIS LINK NEEDS MUCH MORE EVIDENCE BEFORE THEY WOULD RECOMMEND PEOPLE STOP DRINKING SODA SPECIFICALLY FOR LOWERING THEIR BLOOD PRESSURE.

YOU MIGHT THINK CAFFEINATED COFFEE WOULD INCREASE YOUR BLOOD PRESSURE. NOT SO, ACCORDING TO A NEW STUDY IN JAMA, THE JOURNAL OF THE AMERICAN MEDICAL ASSOCIATION. COFFEE DRINKING WAS NOT AT ALL ASSOCIATED WITH A GREATER RISK OF HIGH BLOOD PRESSURE. IF ANYTHING, COFFEE DRINKING WAS ASSOCIATED WITH A PREVENTIVE EFFECT IN THAT WOMEN WHO DRANK MORE COFFEE WERE LESS LIKELY TO HAVE HIGH BLOOD PRESSURE. THE RESEARCHERS, FROM BRIGHAM AND WOMEN'S HOSPITAL IN BOSTON AND OTHER INSTITUTIONS, EXPECTED TO FIND THAT CAFFEINATED COFFEE INCREASED THE RISK OF HIGH BLOOD PRESSURE. "IT WAS ABSOLUTELY SURPRISING TO US THAT WOMEN WHO DRANK 6 OR MORE CUPS OF COFFEE A DAY, THAT EVEN THOSE WOMEN DID NOT HAVE AN INCREASED RISK OF HIGH BLOOD PRESSURE." BUT FOR WOMEN WHO DRANK CAFFEINATED COLA, THE NEWS WAS NOT SO GOOD. WE FOUND THAT DRINKING SODA BEVERAGES THAT CONTAINED CAFFEINE, REGULAR COLA OR DIET COLA, WAS ASSOCIATED WITH A GREATER RISK OF HIGH BLOOD PRESSURE. FULL SCREEN GRAPHIC TITLE: COLA LINKED TO HIGH BLOOD PRESSURE WOMEN AVERAGE AGE - 36 DIET COLA INCREASED RISK 16% REGULAR COLA- INCREASED RISK 28% NEW GRAPHIC WOMEN AVERAGE AGE 55 DIET COLA INCREASED RISK 19% REGULAR COLA- INCREASED RISK 44% IN FACT, COMPARED TO WOMEN WHO DRANK LESS THAN TWELVE OUNCES OF COLA A DAY, YOUNGER WOMEN WHO DRANK FORTY-EIGHT OUNCES A DAY, ABOUT FOUR CANS, SAW THEIR RISK OF HIGH BLOOD PRESSURE GO UP SIXTEEN PERCENT FOR DIET COLA, TWENTY-EIGHT PERCENT FOR REGULAR. FOR OLDER WOMEN, THE RISKS WENT UP NINETEEN PERCENT AND FORTY-FOUR PERCENT. STILL, DR. WINKELMAYER SAYS IT'S TOO SOON TO BLAME COLA FOR HIGH BLOOD PRESSURE. I WOULD NOT JUMP TO ANY CONCLUSIONS AT THIS POINT. I REALLY BELIEVE THAT MORE RESEARCH IS NECESSARY TO SOLIDIFY THESE FINDINGS. BUT HE SAYS HIS FINDINGS ABOUT CAFFEINATED COFFEE ARE CLEAR, AND ARE GOOD NEWS FOR WOMEN WORRIED ABOUT HIGH BLOOD PRESSURE.

UNLESS SHE REALLY, REALLY HAS TO TAKE THEM AND THERE IS NO OTHER WAY OF HER GETTER BETTER, THAN I'LL HAVE HER TAKE IT, OTHERWISE I PREFER FOR IF IT IS A VIRAL INFECTION FOR IT TO RUN ITS COURSE." IT'S A SMART PERSPECTIVE THAT MANY PARENTS DON'T HAVE...WHEN THEIR CHILD HAS A SORE THROAT. "THERE ARE STILL PARENTS WHO WANT THEIR CHILD TO GET ANTIBIOTICS, THEY FEEL THAT THEY WILL GET BETTER SOONER IF THEY HAVE ANTIBIOTICS." REALLY, THAT'S WHAT INFECTIOUS DISEASE SPECIALISTS WANT PARENTS...AND DOCTORS...TO HAVE. ONLY USE ANTIBIOTICS WHEN THE SORE THROAT CALLS FOR ONE. BUT NEW RESEARCH IN THE JOURNAL OF THE AMERICAN MEDICAL ASSOCIATION SHOWS STILL, DOCTORS ARE PRESCRIBING THESE BACTERIA-FIGHTERS FAR TOO OFTEN. THE STUDY FOUND DOCTORS PRESCRIBED ANTIBIOTICS IN 53 PERCENT..MORE THAN HALF...OF ALL VISITS FOR A SORE THROAT. THE REALITY-ONLY 15 TO AT MOST 36 PERCENT OF SORE THROATS ARE CAUSED BY A BACTERIA-STREP-- THAT CALLS FOR AN ANTIBIOTIC. THE REST OF SORE THROATS ARE CAUSED BY VIRUSES. "IN GENERAL IF YOU HAVE A VIRAL PHARYNGITIS OR MONO IT WON'T DO YOU ANY GOOD FOR ONE THING BECAUSE ANTIBIOTICS DON'T TREAT VIRAL INFECTIONS." TO REDUCE UNNECESSARY ANTIBIOTIC TREATMENT, IT IS RECOMMENDED THAT A RAPID STREP TEST BE PERFORMED PRIOR TO TREATING CHILDREN WITH AN ANTIBIOTIC. STILL, ONLY ABOUT HALF OF THE PATIENTS GETTING AN ANTIBIOTIC FIRST HAD A RAPID STREP TEST. "THE TEST IS VERY, PRETTY SENSITIVE AND SPECIFIC SO THAT IF YOU HAVE STREP THROAT OVER 90 PERCENT OF THE TIME YOU ARE GOING TO TEST POSITIVE ON THE RAPID STREP TEST. IF YOU DON'T HAVE STREP THROAT IT IS VERY, VERY UNLIKELY THAT IT WOULD TEST POSITIVE." OF CONCERN: THE ANTIBIOTICS

BEING PRESCRIBED ARE STILL THE WRONG ONES: ONES LIKE AUGMENTIN, AND ZITHROMAX, OR Z-PAC, WHICH SHOULD BE RESERVED FOR MORE SERIOUS INFECTIONS. BY OVERUSING ANTIBIOTICS IN GENERAL AND THE MORE POWERFUL ONES IN PARTICULAR, WE ARE PUTTING OURSELVES AT RISK FOR THE MEDICINES NOT WORKING IN THE FUTURE...BECAUSE THE BACTERIA GET TO KNOW THEM AND ADAPT TO THEM. "SO IF AN ANTIBIOTIC IS USED OVER AND OVER AND OVER AGAIN THROUGH OUT THE POPULATION EVENTUALLY IT WON'T KILL THE BACTERIA THAT WE NEED IT TO KILL."

HOWEVER, WHEN IT COMES TO MISINFORMATION ABOUT SMOKING, BOTH SEXES ARE AFFECTED SIGNIFICANTLY. FOR EXAMPLE, A LARGE PROPORTION OF BOTH MEN AND WOMEN BELIEVED THAT NICOTINE CAUSES CANCER, IT DOESN'T, ITS JUST ADDICTIVE. HOWEVER, WHEN IT CAME TO TAKING ACTION, MORE WOMEN THAN MEN REPORTED SMOKING "LIGHT CIGARETTES," BELIEVING THEM TO BE LESS HARMFUL..WHICH THEY AREN'T. YOU'VE HEARD ABOUT GOOD FATS AND BAD FATS...OBVIOUSLY, THESE ARE THE BAD ONES...BECAUSE THEY'RE LOADED WITH SATURATED AND TRANS FATS. VEGETABLE OILS ARE GOOD FATS. BUT ARE SOME GOOD FATS BETTER THAN OTHERS? IN FACT, ACCORDING TO NEW RESEARCH OUT OF THE JOURNAL OF THE AMERICAN COLLEGE OF CARDIOLOGY, OLIVE OIL MIGHT BE THE BEST, BECAUSE OF SUBSTANCES IN IT OTHER THAN THE FAT ITSELF. OLIVE OIL MAY BE SUPERIOR TO SEED OILS BECAUSE IT IS A NATURAL JUICE, PRESSED FROM OLIVES...SO IT DOESN'T GO THROUGH PROCESSING NEEDED TO EXTRACT THE OIL FROM SEEDS, SUCH AS SUNFLOWERS OR SOYBEANS. RESEARCHERS FOUND OLIVE OIL HIGH IN SO CALLED PHENOLS, WHICH ARE NATURALLY OCCURRING ANTIOXIDANTS IN OLIVE OIL, CAUSED THE VESSELS TO STAY OPEN MORE EASILY. EXPERTS NOT ASSOCIATED WITH THE STUDY SAY THIS SHOWS A VERY SMALL CHANGE IN ONE'S DIET LIKE USING OLIVE OIL WITH A HIGH AMOUNT OF PHENOLS, MAY HAVE A SIGNIFICANT IMPACT ON THE PROGRESSION OF CARDIOVASCULAR DISEASE. TRANSITION BLACK PATIENTS HAVE MORE CHEST PAIN, A WORSE QUALITY OF LIFE, AND WORSE PHYSICAL FUNCTION THAN WHITE PATIENTS ONE YEAR AFTER SUFFERING A HEART ATTACK. THAT'S ACCORDING TO YET ANOTHER STUDY IN THE JOURNAL OF THE AMERICAN COLLEGE OF CARDIOLOGY. THIS IS THE FIRST STUDY TO EXAMINE RACIAL DIFFERENCES IN OUTCOME AFTER A HEART ATTACK.....THE ONE PIECE OF GOOD NEWS: DEATH RATES DID NOT DIFFER BETWEEN RACES. IT COULD END UP BEING THE FOOD AND DRUG ADMINISTRATION'S DARKEST DAY. PLAN B...THE EMERGENCY CONTRACEPTIVE THAT IS DESIGNED TO PREVENT A PREGNANCY FROM OCCURRING AFTER UNPROTECTED SEX... HAS BEEN AT THE EYE OF A HURRICANE THAT IS GROWING IN STRENGTH SINCE THE FINDINGS OF A CONGRESSIONAL INVESTIGATION. NOW, FDA ITSELF CONSIDERS PLAN B A CONTRACEPTIVE...NOT AN ABORTION PILL. "IT IS A PROGESTERONE PILL THAT BASICALLY BLOCKS OVULATION, IF YOU'VE ALREADY OVULATED THEN IT BLOCKS CONCEPTION, AND IF YOU ALREADY CONCEIVED IT MAY BLOCK IMPLANTATION IF THE EMBRYO." BUT THERE IS CONCERN IT'S BEING PRACTICALLY LOOKED AT AS AN ABORTION ISSUE. PLAN B WORKS TO PREVENT PREGNANCY IF TAKEN WITHIN 72 HOURS OF UNPROTECTED INTERCOURSE. THE SOONER IT'S TAKEN, THE BETTER...WHICH MEANS, WOMEN SHOULD BE ABLE TO HAVE EASY ACCESS...AND THAT MEANS, AVAILABILITY OVER THE COUNTER. IN DECEMBER OF 2003, AN FDA ADVISORY PANEL VOTED 23 TO 4...A LANDSLIDE...TO MOVE IT TO OVER THE COUNTER STATUS. BUT IN THE END, THE APPLICATION WAS REJECTED...FDA HEADS SAID, BECAUSE OF CONCERNS OF PROMISCUITY AMONG YOUNGER TEENAGERS IF THEY KNEW AN EMERGENCY CONTRACEPTIVE WAS EASILY AVAILABLE. "EVERY STUDY HAS SHOWN EMERGENCY CONTRACEPTION DOESN'T INCREASE RATES OF SEXUAL ACTIVITY. WHAT IT DOES DO IS DECREASE THE UNINTENDED PREGNANCY RATE. AND BY SO DOING REDUCE THE RATE OF ABORTION." AND DIFFERING BETWEEN YOUNGER AND OLDER ADOLESCENTS, ACCORDING TO THE GAO, HAS NEVER BEEN A FACTOR IN A DRUG APPROVAL FOR OVER THE COUNTER STATUS. "IT'S BECOMING INCREASINGLY CLEAR THE FDA IS PUTTING POLITICS AHEAD OF SCIENCE CONTRARY TO THEIR LEGAL MANDATE. THEIR OWN SCIENTIFIC ADVISORY BOARD VOTED OVERWHELMINGLY TO MAKE EMERGENCY CONTRACEPTION AN OVER THE COUNTER DRUG. THIS IS AN AGENCY THAT IS FAILING WOMEN'S HEALTH IN AMERICA." "IF IT WAS AN OVER THE COUNTER MEDICATION I WOULD FEEL MORE COMFORTABLE TO SAY TO THE PATIENT I'VE KNOWN YOU, GO DIRECTLY TO THE PHARMACY, PICK IT UP DIRECTLY." THAT WOULD BE MORE COMFORTABLE FOR MOST...HEALTH PROVIDERS, AND PATIENTS...BUT FOR SOME REASON... NOT THE FDA. AND IT'S NOT A VIEWPOINT, ACCORDING TO THE GAO, BASED ON SCIENCE...

RAUL GAINETDINOV, DUKE UNIVERSITY: "THEY WENT FROM A SITUATION WHEN THEY COMPLETELY FROZEN TO ABILITY TO MOVE QUITE SIGNIFICANT DISTANCE AND PRETTY MUCH NORMALLY." CARON SAYS THE AMPHETAMINE WORKED BEST WHEN COMBINED WITH "L-DOPA," A PARKINSON'S DRUG THAT HAS LONG-TERM SIDE EFFECTS LIKE LOSS OF MUSCLE CONTROL. MARC CARON, DUKE UNIVERSITY: "YOU CAN USE A MUCH LOWER CONCENTRATION OF L-DOPA. THEN, THAT MIGHT, THAT MIGHT DO AWAY WITH SOME OF THE, THE SIDE EFFECTS OF THE L-DOPA TREATMENT." MICHAEL HUTCHINSON, WHO ALSO STUDIES THE DISEASE, SAYS THE FINDINGS NEED REPEATING BUT THAT

AMPHETAMINES MAY HAVE PROMISE. "THEY MIGHT BE USEFUL IN THE LATER STAGES OF PARKINSON'S WHERE CONVENTIONAL MEDICATIONS FAIL TO WORK." BUT DOES LOWERING THE CHOLESTEROL TO VERY LOW LEVELS, IN FACT, PROVIDE BENEFIT IN THE LONG RUN TO LEONORA AND OTHERS LIKE HER? THE ANSWER IS SORT OF. NEW RESEARCH IN THE LATEST JOURNAL OF THE AMERICAN MEDICAL ASSOCIATION COMPARED STANDARD TREATMENT.... GETTING THE LDL CHOLESTEROL DOWN TO AROUND 100... TO LOWERING THE BAD CHOLESTEROL AGGRESSIVELY...IT WAS ON AVERAGE, 81 IN THIS STUDY. IN FACT, THEY USED HIGH DOSES OF THE CHOLESTEROL LOWERING DRUG LEONORA IS ON...LIPITOR. AGGRESSIVE LOWERING DID NOT LOWER THE RISK OF DEATH, OR MORE SPECIFICALLY, A FATAL HEART ATTACK. THE FINDINGS SURPRISED CARDIOLOGIST MICHAEL KIM. "IT'S JUST ONE STUDY. AND I THINK THE MAJORITY OF THE DATA AT THIS POINT STILL SUPPORTS A LOWER LDL."AGGRESSIVE LDL CHOLESTEROL LOWERING DID REDUCE THE RISK OF STROKE AND OTHER CARDIOVASCULAR PROBLEMS, SUCH AS CONGESTIVE HEART FAILURE OR NON-FATAL HEART ATTACKS. PATIENTS WERE ALSO LESS LIKELY TO NEED CARDIAC PROCEDURES, LIKE ANGIOPLASTY. "FOR THE PATIENTS THAT THE STUDY LOOKED AT, WHICH WAS PATIENTS WITH PREVIOUS HEART ATTACKS, I WOULD RECOMMEND, AND STILL DO, HAVING A CHOLESTEROL OF ABOUT LDL 75 OR LESS, DESPITE THE FACT THAT THIS STUDY DID NOT SHOW SUPERIORITY OVER MODERATE DOSE ZOCOR WITH AN LDL OF ABOUT 104." NEW RESEARCH IN THE LATEST ISSUE OF HEALTH PSYCHOLOGY FOUND STRESS CAN RAISE A PERSON'S CHOLESTEROL LEVELS. THE RESEARCH FOUND INDIVIDUALS VARY WIDELY IN THEIR CHOLESTEROL RESPONSE TO STRESS. LEVELS WERE DRAWN AFTER SUBJECTS COMPLETED TWO MENTALLY STRESSFUL TASKS. INDIVIDUALS WITH LARGER INITIAL STRESS RESPONSES HAD... TWO YEARS LATER....SUBSTANTIALLY GREATER RISES IN CHOLESTEROL THAN THOSE WITH SMALL STRESS RESPONSES. ONE THEORY MAY BE THAT STRESS ENCOURAGES THE BODY TO PRODUCE MORE ENERGY IN THE FORM OF METABOLIC FUELS - FATTY ACIDS AND GLUCOSE. THESE SUBSTANCES REQUIRE THE LIVER TO PRODUCE AND SECRETE MORE LDL, OR BAD CHOLESTEROL. CONTROLLING STRESS MAY BE A WAY TO HELP KEEP CHOLESTEROL, AND CARDIOVASCULAR DISEASE, AT BAY. COULD PARKINSON'S DISEASE BE RELATED TO BEING SMARTER...MORE EDUCATED....AND HAVING MORE

CAREER GOALS? ACCORDING TO RESEARCHERS AT THE MAYO CLINIC, A PERSON'S EDUCATION AND CAREER PATH COULD AFFECT THEIR RISK OF DEVELOPING PARKINSON'S DISEASE. PARKINSON'S DISEASE IS A POTENTIALLY FATAL MOVEMENT DISORDER CHARACTERIZED BY TREMORS, STIFFNESS AND BALANCE PROBLEMS. HAVING NINE OR MORE YEARS OF SCHOOLING ROUGHLY DOUBLED THE ODDS OF HAVING PARKINSON'S. OF ALL THE CAREERS STUDIED, MEDICAL DOCTORS HAD THE HIGHEST ODDS OF HAVING PARKINSON'S DISEASE. THEY WERE MORE THAN THREE TIMES AS LIKELY TO HAVE PARKINSON'S AS CONSTRUCTION WORKERS, WHO HAD THE LOWEST ODDS. THE FINDINGS ON EDUCATION WERE SIMILAR FOR MEN AND WOMEN. STILL, THE PHYSICIAN AUTHORS SAY NO ONE SHOULD ALTER THEIR LIFE'S PLANS DUE TO THIS STUDY. AMERICANS ARE USING OVER THE COUNTER AND PRESCRIPTION PAIN KILLERS IN DANGEROUS AMOUNTS, ACCORDING TO NEW RESEARCH SUPPORTED BY THE AMERICAN GASTROENTEROLOGICAL ASSOCIATION. THE PROBLEM: MANY AREN'T AWARE OF THE POTENTIAL SIDE EFFECTS. OF THE MORE THAN 800 PEOPLE IN THE STUDY WHO USED NON-STEROIDAL ANTIINFLAMMATORY PAINKILLERS, LIKE ADVIL AND NAPROXEN, MORE THAN HALF WERE NOT AWARE OF THE POSSIBLE DANGERS. IN THE STUDY, NEARLY ONE IN FIVE HAD PREVIOUSLY EXPERIENCED SIDE EFFECTS INCLUDING STOMACH PAIN, INTERNAL BLEEDING AND ULCERS. STILL, NEARLY A THIRD USING THESE MEDICINES BELIEVED THEY WERE NOT AT RISK FOR ANY SIDE EFFECTS ASSOCIATED WITH PAINKILLER USE. NEARLY 25 PERCENT EXCEEDING THE RECOMMENDED DOSAGE, PUTTING THEM ESPECIALLY AT RISK FOR SIDE EFFECTS.

THE AMERICAN HEART ASSOCIATION RELEASES ITS NEW GUIDELINES TODAY FOR CPR OR CARDIO-PULMONARY RESUSCITATION - FOR DROWNING, SHOCK, OR HEART ATTACK VICTIMS. CHANGES TO THE GUIDELINES WERE PROMPTED BY NEW RESEARCH SHOWING THAT COMPRESSING THE CHEST TO KEEP THE BLOOD FLOWING IS MUCH MORE IMPORTANT FOR SAVING LIVES THAN GIVING MOUTH TO MOUTH BREATHS. LAY PEOPLE SHOULD NOW GIVE EMERGENCY VICTIMS 30 CHEST COMPRESSIONS FOR EVERY 2 BREATHS-- TWICE AS MANY AS WERE PREVIOUSLY

RECOMMENDED. AND TO SAVE PRECIOUS MOMENTS, THE PERSON GIVING CPR SHOULD NOT EVEN STOP TO CHECK FOR SIGNS OF A PULSE OR HEART BEAT: IF THE VICTIM IS NOT BREATHING JUST GIVE 2 RESCUE BREATHS AND START CHEST COMPRESSIONS RIGHT AWAY. TIME IS CRITICAL. THE NEW 30-TO-2 RATIO SHOULD BE DONE FOR ALL AGED ADULTS AND CHILDREN, WITH THE EXCEPTION OF NEWBORNS, WHO SHOULD BE GIVEN 3 COMPRESSIONS FOR EVERY 1 BREATH. PUSHING DOWN ON THE CHEST IS SO IMPORTANT TO BLOOD FLOW AND SURVIVAL THAT HEART AND ASSOCIATION EXPERTS SAY TO "PUSH HARD PUSH FAST" WITH AS FEW INTERRUPTIONS AS POSSIBLE.

--REPORTER PKG-AS FOLLOWS-- AS OBESITY INCREASES AROUND THE WORLD, RESEARCHERS SAY NEEDLES USED FOR SHOTS MAY HAVE TO BECOME LONGER. SCIENTISTS IN DUBLIN FOUND HEAVIER PATIENTS OFTEN DON'T RECEIVE FULL DOSES OF MEDICATION, BECAUSE REGULAR-SIZED NEEDLES USUALLY ONLY PENETRATE LAYERS OF FAT AND NEVER REACH THE BLOOD VESSELS IN THE MUSCLES, WHICH SEND MEDICINE TO THE REST OF THE BODY. DOCTORS USED A CT SCAN TO MEASURE HOW EFFECTIVELY NEEDLES PENETRATED THE BUTTOCKS OF 50 PATIENTS, HALF MEN AND HALF WOMEN. THE MEDICATION ONLY REACHED THE MUSCLES OF TWO OF THE WOMEN. AND IN MORE THAN TWO-THIRDS OF ALL PATIENTS, THE INJECTIONS NEVER REACHED BEYOND THEIR FAT. AND ACCORDING TO A RECENT ARTICLE IN THE JOURNAL CANCER, UP TO HALF OF SMOKERS DIAGNOSED WITH CANCER CONTINUE TO SNEAK A PUFF. LOOKING AT EXISTING DATA, RESEARCHERS FOUND MANY CANCER PATIENTS NEVER QUIT, WHILE OTHERS SUFFER RELAPSES AFTER TRYING TO KICK THE HABIT. SCIENTISTS SAY THE STRESS OF DEALING WITH CANCER CAUSES MANY SMOKERS TO KEEP LIGHTING UP AND DOCTORS CAN ASSIST PATIENTS BY PRESCRIBING MEDICATION TO HELP THEM QUIT. EARLIER STUDIES HAVE FOUND THAT PATIENTS WHO CONTINUE TO SMOKE ARE LESS LIKELY TO SURVIVE CERTAIN CANCERS THAN THOSE WHO QUIT IMMEDIATELY AFTER BEING DIAGNOSED.

MANY WHO FOLLOW THE CHANGING JUSTICES' EVERY TWITCH BELIEVE THE IMPLICATIONS NOW GO FAR BEYOND THESE CASES. THIS IS REALLY A BELLWHEATHER FOR WHERE THE SUPREME COURT IS GOING TO GO IN TERMS OF LIMITING ROE. VS. WADE AND POTENTIALLY EVENTUALLY OVERRULING IT. THE MORE IMPORTANT ARGUMENTS ARE OVER THE NEW HAMPSHIRE LAW THAT SETS RULES FOR PARENTAL NOTIFICATION BY MINORS BEFORE AN ABORTION PROCEDURE. IT PERMITS AN EXCEPTION ONLY FOR LIFE AND DEATH CONSIDERATIONS. LOWER COURTS HAVE RULED THAT LAW IS TOO RESTRICTIVE. THE SECOND CASE CONCERNS THE LEGAL TOOLS AVAILABLE TO PROSECUTE THOSE WHO IMPEDE ACCESS TO FAMILY PLANNING CLINICS. IT'S ENTIRELY POSSIBLE THAT SANDRA DAY OCONNOR WHO IS HERE TODAY WILL BE GONE...REPLACED BY THE TIME THE COURT RULES... IN THAT CASE, HER VOTE WOULD NOT COUNT AND THERE COULD BE A TIE. THEN WHAT? THE REMAINING JUSTICES HAVE A CHOICE. THEY CAN EITHER SEND THE CASE BACK TO THE LOWER COURT AND THAT RULING WILL STAND, WHICH WOULD TAKE THE NEW HAMPSHIRE LAW OFF THE BOOKS. OR A SUPREME COURT WITH A NEW JUSTICE POSSIBLY LESS FAVORABLE TO ABORTION COULD DECIDE TO HEAR THE SAME CASES AGAIN. WHICH MEANS THIS WILL BE A FIRST RUN ALMOST LIKE A FORMAL MOOT COURT, A PRACTICE SESSION.
